Florence, Italy**

Dear colleague, dear friend,

We are pleased to invite you to the Workshop we are organizing in Verona (Italy) from Sunday October 4<sup>th</sup> to Tuesday October 6<sup>th</sup> 2009.

This Workshop will be the first to be devoted to Dravet syndrome. We are planning to discuss current knowledge about the syndrome with the purpose of promoting a step towards improving clinical management, research strategies, pharmacological and non pharmacological treatment and care.

About 30 eminent international experts from Argentina, Australia, Belgium, Canada, France, Italy, Japan and the USA who have contributed to shape our current understanding of this syndrome will compare their experiences and assumptions. Representatives of patients' families will also participate and share their testimonies.

We look forward to welcoming you in Verona!

The Scientific Committee
